

Options for Beginners

A Tradewinz™ Online Course

Learn the Basics of Options Trading!

- What are **charts like this saying**
 - *about risk?*
 - *about the market?*
 - *about a stock?*
 - *... about options on a stock?*
- What are options, and how can I use them as effective tools for
 - *risk management?*
 - *profits?*
 - *understanding a stock price better?*
 - *understanding market dynamics better?*

Learn with us - from the ground up!

At Tradewinz™ we **avoid**

- *overly complex options math that confuses*
- *options jargon that keeps you in the dark*
- *pushing you to trade options even if they aren't the best choice that day*

Options are one of the most **dynamic and opportunity-laden asset classes** available to retail traders

They are **an essential tool** in any trader's toolbox

In our **beginner course**

- *we start from the basics*
- *we keep the basics in sharp focus at all times*
- *we show you the right way to think about options*
- *and we show you what NOT to do when trading options!*

You owe it to yourself to avoid trading options, until you have mastered the fundamentals of the asset class!

This course will show you how!

Our unique Tradewinz™ approach...

Delivers content at the appropriate level, at an appropriate pace

Is engaging, fun, informative, and offers 'out of the box' and creative thinking

Is practical and applicable

Is not overwhelming

Is aimed at YOUR trading education needs

Encourages independent thinking, self-direction, and a commitment to ongoing learning

We provide:

- *Interactive classes*
- *Case studies using technicals and fundamentals (but a very understandable level)*
- *Ongoing access during the period of your subscription, so you can review what you have learned, and solidify your learning!*

Join us today!

Don't waste time and money trading badly,

... or learning strategies and approaches that do not work for you!
